ONLINE CONSORTIUM OF OKLAHOMA
Annual Report 2022-23

HISTORY

In 2012, the Oklahoma State Regents for Higher Education (OSRHE) established the Online Education Task Force to review the delivery of online education throughout the state system, calling for working groups to develop strategies, efficiencies, and innovations to improve online teaching and learning. The Council for Online Learning Excellence (COLE) was established in 2016 and opened to volunteers from all Oklahoma institutions. In 2018, OCO was established as a membership group to support COLE and provide coordination and collaborative investments for its member institutions. With the success of this collaboration and accomplishment of its initial goals, the State Regents sunset the Task Force in 2022 and now sustain the ongoing initiatives with dedicated staff support to COLE's 125+ volunteers and OCO's 26 member institutions.
